##### C2E Track

The Career & Credential Exploration (C2E) Track assists with establishing clear goals, evaluating training options, and building an action plan. They will learn how to use certification finder web tools to identify licensed occupations and a military occupational code translator.

**CRS: Complete a comparison of technical training institution options**

##### My Education Track

Service members pursuing college education will receive guidance to prepare for the college application process. The Education Track addresses such topics as identifying educational goals, education funding, and researching and comparing institutions. Upon completion of the Entrepreneurship Track, service members will have developed the initial components of their business plan.

After completing an optional six-week online course, service members and veterans will be connected with a small business owner to mentor and guide them through their business start-up.

**CRS: None**

#### TAP Virtual Curriculum

The Department of Defense introduced a virtual delivery of the Transition curriculum in <https://www.tapevents.org/courses> (Transition Online Learning, TOL). This resource provides service members who are unable to attend TAP training in person in a “brick and mortar” classroom with the means to obtain online instruction. Members and their families can participate in virtual curriculum at any time during their military career, however, only certain categories of personnel can use virtual curriculum to fulfill mandatory transition requirements.
